## Devolution - Have Your Say

Bassetlaw Residents are being asked for their views on a devolution deal that could allow for powers and decisions on millions of pounds worth of funding to be made locally, instead of by Government officials in London.

Following a decision by Councillors in March, Bassetlaw District Council has applied to be a full member of the Sheffield City Region (SCR), which has already negotiated a deal with the Government to make local decisions on how £900 million in funding over the next 30 years is spent, in addition to an additional £484 million over the next five years.

This funding would be used to create jobs, invest in housing, and create training opportunities for local people. But before this can be approved by Government, the SCR and the Council must first consult with residents.

The consultation runs from 1st July until 12th August and is Available online via:

[www.sheffieldcityregiondevolution.org.uk](http://www.sheffieldcityregiondevolution.org.uk) in addition to consultation events that will be taking place across the district over the next six weeks.

## Neighbourhood Plan - Survey Progress Report:

The Neighbourhood Plan Steering Group would like to say a **big thank you** to all Lound residents who kindly completed their Survey for collection and they are pleased to report that to date of the 202 occupied properties in the parish, we have received just over 80% return. If for whatever reason your form has not been collected (please note we have been round the village two or three times) and you still wish to have your views included in the survey, please contact the name of your collector which you should find on the back of the form, to arrange a convenient time for collection.

The next stage of the Neighbourhood Plan process is for the Steering Group to commence the analysis of the responses we have received and we will keep everyone updated with our progress in due course.

## Bonfire Warning!

During hot weather please take care when burning rubbish. Be mindful of neighbours and that smoke does not annoy when house windows are open and families are outside having BBQ's.
