- **Motion:** Mobile Phone Coverage in Lound

To consider concerns raised regarding poor mobile phone coverage within Lound and determine whether the Parish Council wishes to take any further action to support residents in evidencing the issue and making representations to relevant organisations.

Legal Power: Local Government Act 1972, s.111 – power to take action which is calculated to facilitate, or is conducive or incidental to, the discharge of the Council’s functions, including the transaction of parish business.

Officer Recommendation: Members are advised to note that mobile network provision is ultimately a matter for the individual network operators and the Parish Council has no power to require an operator to improve coverage or install additional infrastructure.

If members consider that there is sufficient community concern, the Council could reasonably support residents by gathering evidence of poor coverage, identifying affected locations and networks, and making representations to relevant operators and public bodies.

If the Council wishes to progress the matter, it is recommended that:

- a councillor is nominated to lead the issue;
- residents are invited to provide evidence of affected locations and networks;
- the evidence is reviewed before any formal representations are made; and
- if there is sufficient support, the Council considers assisting residents with an appropriate petition or representation to Nottinghamshire County Council and/or the relevant mobile network operators.

Members should be aware that any such action may result in further investigation or representations being made, but would not guarantee improved coverage or the provision of a new mast.
